

EVERPLAY PLAY MATS

The Solution for Accessible Routes , High Traffic Areas, Swings and Slides

EVERPLAY has developed a system of Mats, Thresholds, Adhesives, Support, Base Materials and Tools to provide a solution for the owner that is working to provide an Accessible Route through loose fill materials. The PlayMat system can provide for fall heights of 4' to 11'

Loose fill materials such as sand, pea gravel, rubber nuggets, engineered wood fibre, rubber crumb, rubber fibres, etc. can be maintained to the edge of the PlayMat

EVERPLAY provides a threshold system and cutting tools to ensure a correct fit with creation of an appropriate change in vertical level.

The Threshold System provides long-term support that is independent of the preparation of the base materials at the edge of the playground. The **EVERPLAY** Threshold is ADA compliant and provides for no change in vertical height greater than 1/4" and the sloped edge is at less than 1:2 and less than 1/4" in vertical height.

play and recreation surfaces

EVERPLAY INTERNATIONAL INC.

The EVERPLAY adhesives and installation procedures ensure that the joints between the PlayMats will remain stable and the vertical level maintained.

The EVERPLAY support timbers provide support for the PlayMat to ensure that the Accessible Route will remain smooth and the cross-slope remains less than 2%. The EVERPLAY support timbers also allow for an 11' fall

The EVERPLAY PlayMats54 are manufactured in 5' x 4' x 2" size to ensure compliance with the minimum width for the ADA Accessible Route. Placing these in combination will ensure the maintenance of the require Accessible Route.

The EVERPLAY PlayMats44 and PlayMats33 are manufactured in the 4' x 4' x 2" and 3'x3'x2" size to accommodate the disruption of loose fill materials under swings, at the end of slides and other high traffic areas. These mats can also be combined into a "T" to provide the entrance to a playground.

Product	Unit	Price
PlayMat33	3' x 3' x 2" piece	\$ 139.00
PlayMat44	4' x 4' x 2" piece	\$197.50
PlayMat36	3' x 6' x 2" piece	\$216.00
PlayMat54	5' x 4' x 2" piece	\$240.00
Full Depth54	5' x 4' x 12" piece	\$515.25
Threshold 4	4' long (set)	\$135.00
Threshold 5	5' long (set)	\$151.00
EVERPLAY Adhesive	1 gallon unit	\$ 59.50
